Introduction

**The 3 co-presidents
of the Coupe Icare :**

Sara Gill,
Thibault Lajugie Arnaud
Cartier Million

“THE COUPE ICARE, WITH ITS MANY EVENTS, IS A HIGHLIGHT IN THE LIFE OF THE FREE FLIGHT AND LIGHT AIR SPORTS COMMUNITY.”

Pilots, federations, manufacturers, importers, equipment providers... No one among the various disciplines represented would miss the largest free flight event in the world.

But the Coupe Icare is also, and mainly, a hugely popular celebration, committing every year to welcoming an ever-growing public to celebrate and share the culture of flight. Eager to enjoy spectacular shows and thrilling sensations, the public is also fond of poetry, art, music, and unexpected performances on land and in the air, in breathtaking natural surroundings: **the Massif de la Chartreuse and the Vallée du Grésivaudan.**

Up to 90 000 visitors are expected with family and friends, to attend the aerial ballet of the greatest pilots, be moved by incredible performances of artists of all kinds, soaking the fun during the famous Icarneval with its fancy-dressed pilots, or discovering the world's beauties on the silver screen with stunning aerial views.

The Coupe Icare 2022 offers a rich and varied program that will fulfill all expectations, for all publics, and all ages. Future pilots can find out more about aerial disciplines, meet the schools and forge relationships with other practitioners. Meanwhile, young would-be flyers will be able to learn about aeronautics thanks to one of the many fun activities at **Icare Mômes**... enough to inspire future pilots!

The entire Coupe Icare organisation crew and its 1,200 volunteers look forward to welcoming the great free flight family once again. And beyond these essential contributors, it is a whole region that carries the Coupe Icare and cannot wait for the party to begin!

Since its creation in 1974, the Coupe Icare has experienced some challenging times, such as a first cancellation in 1977, due to a strong northern wind. But **the Coupe Icare was always able to recover and renew its offer, with new flying practice, sporting and artistic disciplines, and launching new initiatives.** In a word: we always made sure the latest edition was even more stunning than the previous one.

After cancellation in 2020, this time due to the Covid crisis, and a 2021 event skillfully run successfully but with a limited program under tight crowd restrictions, all the players involved in this great event are now eager to kick off the 49th Coupe Icare. **Our teams are giving their utmost best to ensure that the 2022 edition is a dashing event in XXL format, over 6 days**, gathering all the ingredients that have secured its success in the past, and much more: expect quite a few new surprises.

We look forward to seeing you from September 20 to 25 in Saint-Hilaire and Lumbin.

THE COUPE ICARE: AN ESSENTIAL EVENT FOR 49 YEARS

THE LARGEST FREE FLIGHT EVENT IN THE WORLD

Over half a century, the Coupe Icare has become **the most important event dedicated to free flight in the world**, a must-attend for those who like to dream with their head high in the clouds.

The Coupe Icare offers a range of sporting, festive, artistic, and cultural happenings for all publics. Seasoned pilots as well as novices, mainstream audiences young and old, meet every year for a wondrous moment of celebration. Together, they marvel at the exploits of the greatest pilots, applauding the many creations and artistic performances on offer, and discovering the latest innovations in a sector that experiences constant change. **Over 6 days, paragliders and hang gliders, paramotors, hot air balloons, aerobatics aircrafts, and many more expressions of light air sports** come together.

Hailing from **all over the world**, the public gathers in the heart of the Alpes iséroises to take part in this great celebration. **Created in 1974** by a passionate group of friends, the Coupe Icare now welcomes **over 90 000 visitors** every September.

The Coupe Icare takes place a short ride from Grenoble, between the Grésivaudan

valley and the Massif de la Chartreuse, on the paragliding take-off area of the Plateau des Petites Roches (Saint-Hilaire) by the cliff side, and its huge landing area 700m below.

The Coupe Icare is aimed at the general public as well as pilots and air sports professionals alike. The program on offer is rich and diverse so that everyone has access to a full overview of free flight.

- **AERIAL DEMONSTRATIONS** of various practices.
- **FANCY-DRESS FLIGHT** contests.
- **INTERNATIONAL AERIAL FILM FESTIVAL** and conferences.
- Equipment test, **TRADE FAIR** and second-hand market.
- **CHILDREN'S AREA** Activities dedicated to families and school groups.
- **CONCERTS, STREET ART, EXHIBITIONS...**

The Coupe Icare makes the sky a place of poetry.

SEE YOU
ON TUESDAY 20
TO SUNDAY 25
FOR THE 49th
COUPE ICARE !

THE COUPE ICARE, IN A FEW FIGURES AND DATES

2 sites: Saint-Hilaire with its 4 take-off areas, and Lumbin with its landing area.

90 000 visitors every year, including 10 000 pilots.

1 200 volunteers from 30+ local non-profit associations working for the event's organization.

13 disciplines: paragliding, hang gliding, glider, hot-air balloon, parachuting, paralpinism, model aircrafts, motorized ultra-light, kiting, falconry, slackline, boomerang.

150 professional exhibitors for a show covering 5 000 m² indoors and 10 000 m² outdoors.

700 pilots putting on a show: costumed flights, demo flights, aerobatics...

5 000 spectators at the Icares du Cinéma in a temporary 600-seater venue, set up directly on the take-off area.

800 school children and their teachers welcomed as part of Icare Mômes, by youth ambassadors of the Coupe Icare: local school children from Saint-Hilaire.

2022
The 49th edition,
with 6 days
of celebration.
It is also the 40th
Icares du Cinéma,
the international aerial
film festival, with all
those who have
contributed to
its legend.

Mai 1974, a time of trailblazers.

Rising for the first time in the sky above Saint-Hilaire, 3 hang gliders take off from the « Pré qui tue », at the foot of the Dent de Crolles.

September 1974, 1st Coupe Icare.

50 hang gliders, then a very recent discipline, meet in Saint-Hilaire for the first French precision landing competition. Inhabitants of Grenoble and the region witness for the first time the dance of “bird-men”, and the road link from Grenoble to Chambéry is blocked.

1983, 1st International Aerial Film Festival.

The first jury president is Pierre François Degeorges, presenter of the celebrated TV show “Les carnets de l’aventure”, on national public channel Antenne 2. He remained a faithful friend of Saint-Hilaire, attending every edition of the festival until his death in 2003.

1983, first spontaneous costumed flights,

precursors of an event that will make the Coupe Icare world famous: the spectacular Icarnaval.

1984, the second-hand market

is born and **the first professional exhibitors** move into the fields of Saint-Hilaire for the festival.

1993, first aerobatics shows

by hang gliders and paragliders. It is also the year of **the first montgolfiades** (hot air balloons gathering).

2004, first motorized and kite demonstrations.

THE LARGEST CELEBRATION OF LIGHT AIR SPORT IN THE WORLD, FOR ALL AUDIENCES

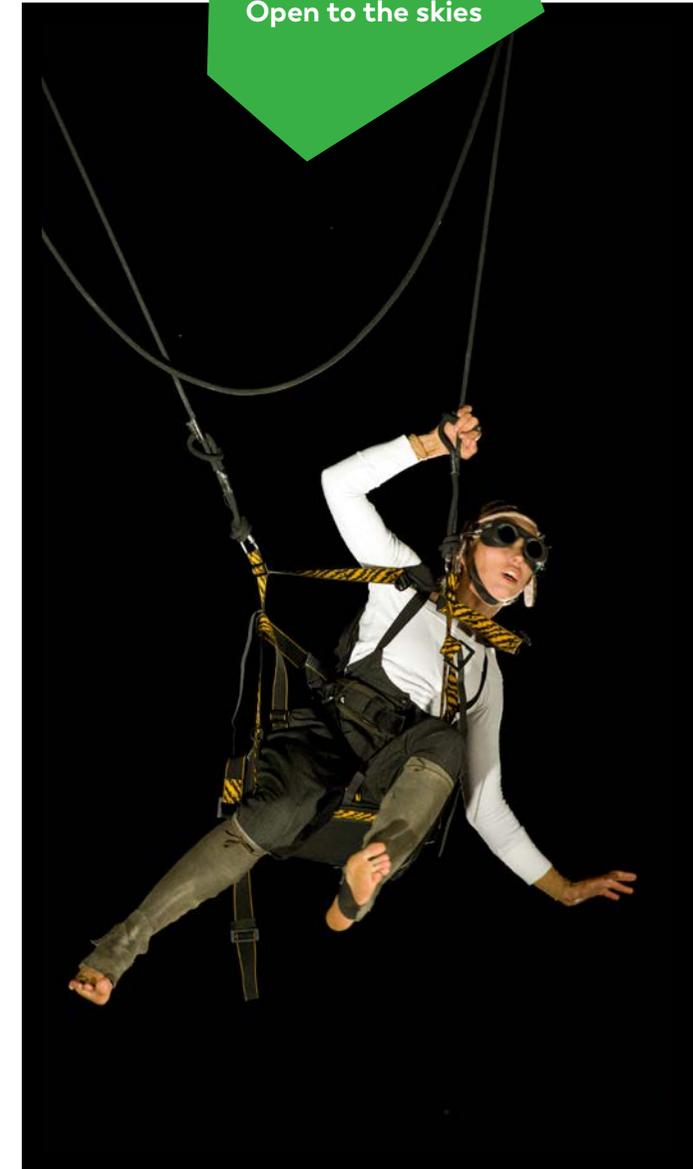

This is an event originally thought up by pilots, for pilots ... but it has been able to integrate, over the years, the growing public enthusiasm for air sports. This passion, eagerness, amazement of mainstream audiences for aerial shows that are always more spectacular have made this event a huge popular festival where young and old alike gather in celebration of Icarus' old dream: to leave the ground and explore the Earth from the skies.

Entertainment,
art, poetry,
humor, science,
innovation, sport...

The Coupe Icare
provides a bit of all
these things at once.

The Coupe Icare is,
above all, a gigantic
open-air theatre...
Open to the skies

A PROGRAM FOR ALL AGES, FOR FAMILIES AND EXPERIENCED PILOTS ALIKE

ICARE MÔMES

AN EXPERIENCE OF DISCOVERY AND AMAZEMENT

A space dedicated to a young public, to generate curiosity for aerial activities, and perhaps even inspire some to take to the skies. Youngsters are invited to take part in aerial and areological activities.

Workshops to understand and experiment: Weather forecasting and making weathervanes, origami, or paper planes, water rockets, a scientific discovery of air, making kites, gliders, wind turbines, creating Icarus costumes and windsocks with recycled paragliders, making paper hot air balloons, introduction to making and throwing a boomerang, discovery of the skies, falconry demonstrations, listening to and observing birds in nature, introduction to slackline...

COUPE ICARE,
FEET ON
THE GROUND
...

A PROGRAM FOR ALL AGES, FOR FAMILIES
AND EXPERIENCED PILOTS ALIKE

ICARE FOLIES

FOR YOUR EYES AND EARS

Concerts, street art, unlikely shows, brass bands scattered throughout the site. Diverse music, joyful and full of energy, that infuse your evenings with rhythm, to make you dream, to be moved or stunned, to have fun and make this Coupe Icare a wondrous moment of pleasure and celebration!

LES ICARES DU CINÉMA

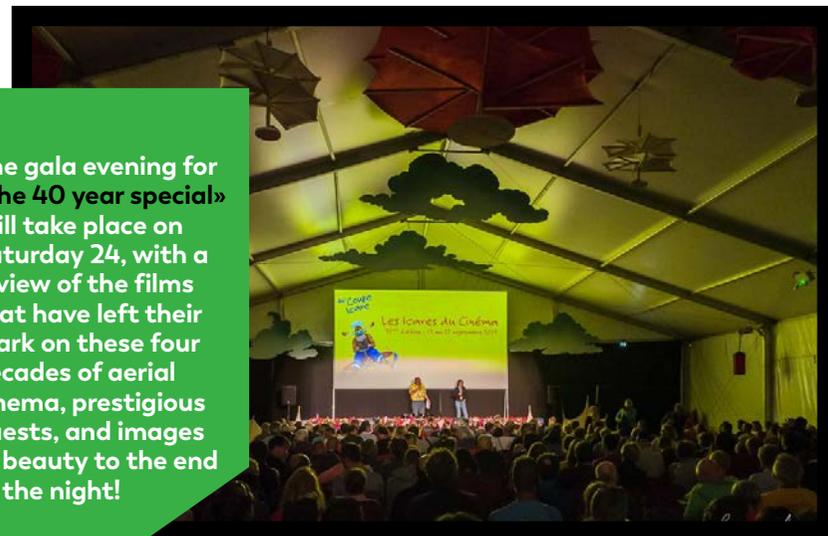

THE ESSENTIAL INTERNATIONAL AERIAL FILM FESTIVAL,
SPECIAL 40TH ANNIVERSARY

It is one of the highlights of the Coupe Icare since 1983, with an average 20000 festival goers every year. A reference for all visual arts professionals and practitioners of free flight.

The festival gathers movie productions (short, long, and feature films) around the theme of air, wind, flight, and all air sports such as paragliding, hang gliding, free fall, hot air balloon, human-powered flight, glider, base jump, kite, boomerang. Motorized aerial sports are restricted to paramotor, ultralights, models, aerobatics, and aerial feats. Films on bird flight are also accepted.

The festival receives over a hundred submissions every year, from all over the world. Following a pre-selection, the best films are put to a vote of the official festival jury, made of sport and visual arts professionals (producers and directors), but also to the Press Jury and a Children's Jury made of year 5 children of primary schools in St Hilaire, Lumbin, and St Pancrasse.

The gala evening for «the 40 year special» Will take place on Saturday 24, with a review of the films that have left their mark on these four decades of aerial cinema, prestigious guests, and images of beauty to the end of the night!

STARTING
TUESDAY 20
SEPTEMBER:
SCREENING OF
THE 2022 OFFICIAL
SELECTION.

THE AWARD LAUREATES

ICARE ATTERRO

EVERYTHING THAT FLIES
WILL MEET THE GROUND

The landing area at Lumbin is a fantastic space that can host numerous activities, first of which the landings, of course. Indeed, as all pilots full well know, everything that flies must land! Now for the realization of this flight phase in the most graceful possible way: it is a show in itself! It is also an ideal area to observe all aerial shows.

The Isère council has put together in this area a **village organized around sport and fun activities**: climbing walls, slackline, biathlon, virtual reality experiences, skateboarding, climbing walls slackline, biathlon, skateboard, pump track & BMX, bike maintenance and repair workshops, and even awareness of bird protection.

Right at the centre of everyone's attention, but more importantly at the heart of the valley, **accessing the Icare Landing area is free and easy**, with secure parking for electric bikes, safe, dedicated bike lanes, and shuttle links to the car parks.

ALSO FOUND,
IN THIS AREA,
ACTIVITIES AROUND:
KITING,
ULTRALIGHT,
AEROMODELING,
POWER KITE
...

ICARNAVAL

THE UNHINGED CONTEST FOR CRAZY FANCY-DRESSED FLYERS

What do sofas, frogmen, a trashcan, a flowerpot, and a dragon have in common? At the Coupe Icare, all of the above can fly !

Icarnaval is a real highlight of the event, and a contest like no other with costumes rivalling in incredible originality!

This is an aerial carnival full of surprises: pilots delight the crowds with treasures of creativity, beauty, and skills in their fancy dress attires. **A unique air parade**, it draws the public into an eerie imaginary world! These costumed take-offs make the rounds on global media every year.

ICARE SHOW

A BREATHTAKING AERIAL BALLET

The Icare Show is the most incredible air show in the world. The Coupe Icare summons everything that flies light, with or without an engine, and has been welcoming in recent years aerobatics demonstrations that will take your breath away. As it does every year, the Coupe Icare will put up demonstrations by the cream of pilots showcasing their boldness!

Among the many scheduled air shows this year, do not miss the **helicopter demo by the angels of Sécurité Civile**, **Wingsuit demos**, the **helicopter drop of a parachute identical to that designed by Leonardo Da Vinci**, and the **performance by the aerobatics team of the French Air Force!**

Guaranteed thrills !

**COUPE ICARE,
HEAD IN

...

OVER 15 DISCIPLINES:

Paragliding, hang gliding, paramotor, ULM, hot air balloons, airships, mini hot-air balloons, parachuting, wingsuit, paralpinism, kiting boomerang, aviation, gliders, paper planes, falconry.

A PROGRAM FOR ALL AGES, FOR FAMILIES
AND EXPERIENCED PILOTS ALIKE

ICARE BALLONS

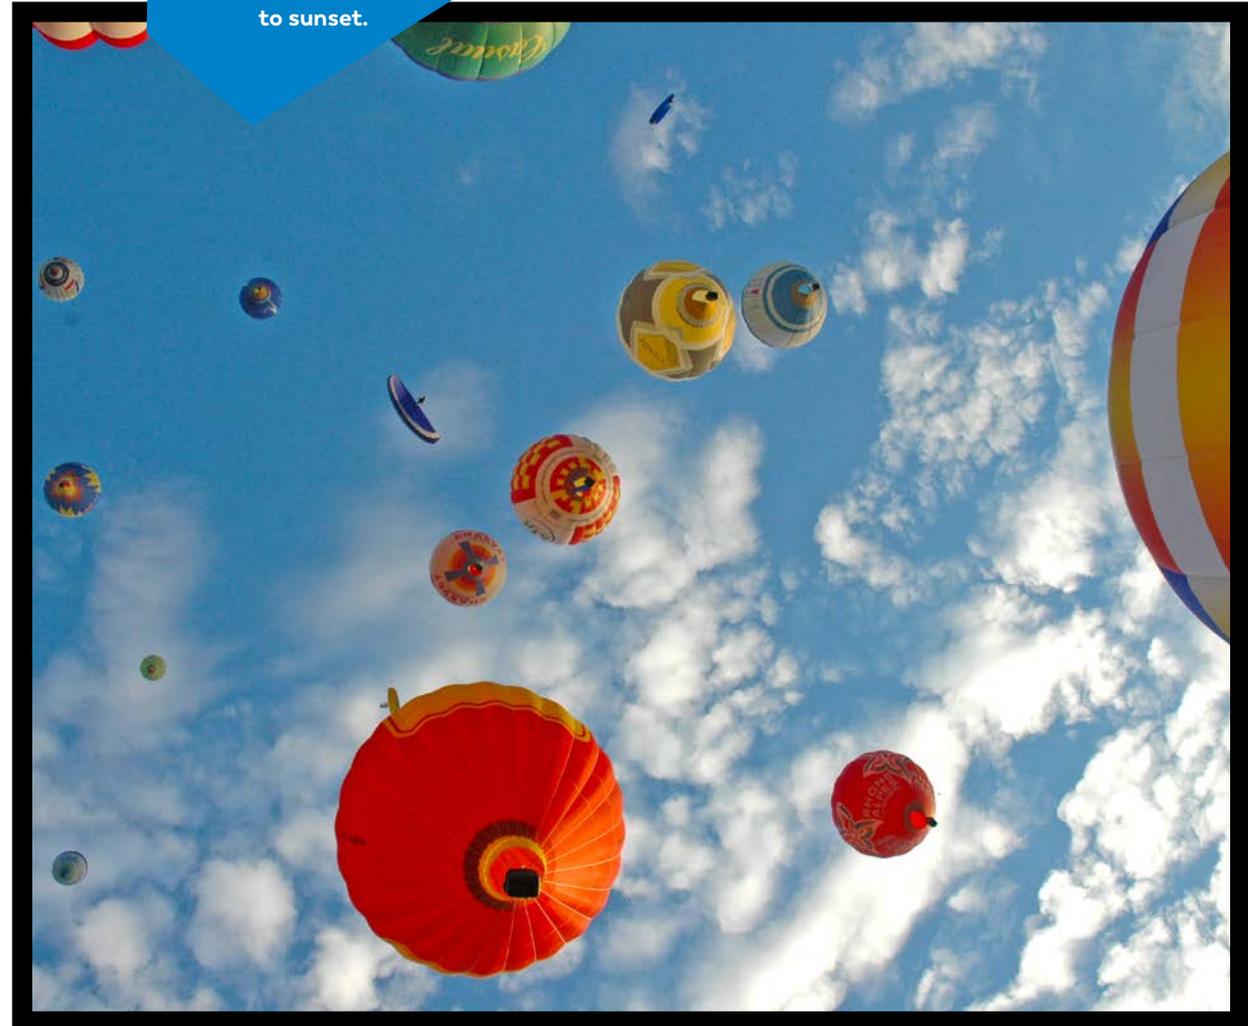

THE MEETING OF HOT AIR BALLOONS

As a ritual celebrating the rising and setting of the sun, hot air balloons in their numbers soar seamlessly in the air, gigantic and graceful.

A group take-off of hot-air balloons, gliding through the air in their many shapes and colors, for our greatest delight, provides a magical instant of poesy.

Balloons in shapes, « cinébulles » and various airships are present on the Lumbin landing area, from Friday to Sunday, Subject to weather conditions, from sunrise to sunset.

TRADE FAIR: THE MEETING OF PRACTITIONERS AND PROFESSIONALS

The Coupe Icare is an event created by and for pilots. The general public is of course welcome as a spectator of aerial demonstrations. But the Coupe Icare owes its identity to the thousands of pilots that come every year for this annual get together, gathering from faraway places the world over, with the entirety of light aircraft material manufacturing brands.

This is a “Business Place” dedicated to all involved in the industry. A networking place, with clients and partners, a sizeable second-hand market, and the largest showroom for flying novelties from all over the world.

ICARE EXPO

The first international fair for paragliding, paramotor, and air sport professionals.

In large marquees for the 2022 edition, the ICARE EXPO fair will host over **200 international companies** working in the light air sports sector: paragliding, hang gliding, ultralights, parachuting... It is an opportunity for everyone, manufacturers, importers, retailers, schools, clubs, pilots, and the general public, to meet and network around the latest novelties in the various disciplines of the sector: flying devices, technical clothing, accessories, instrumentations, technological innovations...

ICARE TEST

Try it before you buy it

Icare Test is back, for the second year running, now a flagship activity of the Coupe Icare!

This is a dedicated meeting for paragliding pilots to discover and test-flight all new products available (paragliders, harnesses, flight instruments...) by borrowing them directly from the manufacturers present on site.

Access to all available tests: 15 euros

THE OPEN-AIR SPORTS & LEISURE FAIR – LUMBIN

Many manufacturers and outdoor equipment retailers will be introducing their latest innovations. There will be something for the whole family.

A FLAGSHIP EVENT SUPPORTED BY THE WHOLE LOCAL COMMUNITY

Over almost 50 years, this event born of the passion of a few individuals and carried by the energy of a small village community has become the most important event of its kind in the world. It is also the open-air event that attracts the largest crowd in the Auvergne Rhône-Alpes region.

The Coupe Icare has long been an event with an international outreach, with its spectacular images widely shared by French and international media across the world. This is a unique opportunity to showcase our region, with a significant impact on its economy.

The event turns the spotlight on the fabulous landscapes of our valleys and draws visitors from around the world.

With the practice of air sports, the Coupe Icare has brought a major contribution to the reputation of free flight in St-Hilaire – Lumbin, consolidating economic activity linked to air sport practice in the sector.

Today, about 50 professionals make a living from their activity in free flight on the site of Saint-Hilaire – Lumbin: pilot schools, tandem flights, equipment stores, etc.

MAJOR ECONOMIC BENEFITS FOR THE REGION

During the event

- From the Plateau des Petites Roches to Grésivaudan Valley, from the borders of Savoie to the Grenoble urban area, all tourist accommodation gets booked out by festivalgoers.
- High-street and hospitality businesses can add an extra month's worth of income to their annual revenue thanks to this September rush.

All year long

- The site welcomes pilots of all nationalities, coming to fly or lean to fly “on the Coupe Icare spot”.
- Tourists and holiday makers come from all over the world to visit the site and the region after finding out about it in media reports on the Coupe Icare and may seize the opportunity for a first tandem flight!

The organizing committee of the Coupe Icare is dedicated to working with local contractors, generating economic activity

For almost 50 years, the Coupe Icare has been able to bring local communities together, creating a strong bond. Locals are deeply involved in the event's preparation. Volunteers pass on their passion to the next generation within the same families... This is what gives the event its dynamism, as well as the wonderful welcome relished by visitors.

SUPPORTING THE LOCAL ECONOMY AND SOLIDARITY IN ALL AREAS OF ORGANIZATION: CATERING, TRANSPORT, PROCUREMENT, RECRUITMENT .

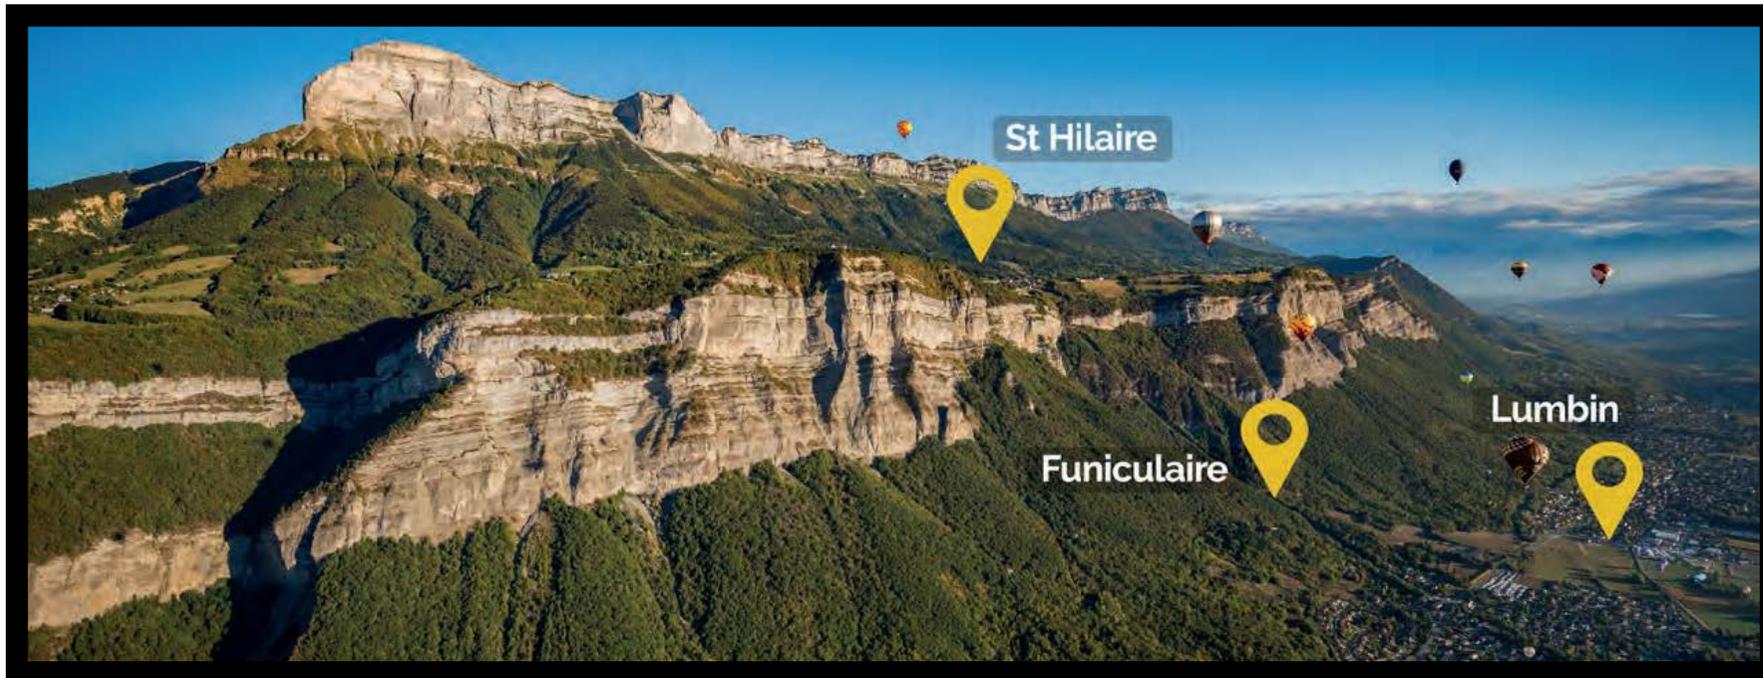

The Coupe Icare now belongs to the whole community supporting the event.

The Coupe Icare association is a non-profit organisation. The event supports partner associations for their individual projects, and annual activities. 35 local non-profit organisations are taking part in the event with the support of 1,200 volunteers. Each association is tasked with a specific mission, delegated by the association Coupe Icare Org.

THE SITE OF ST HILAIRE / LUMBIN

Two villages separated by high cliffs and 700-meter drops, but united by free flight for over 40 years. Saint-Hilaire is the take-off site for hang gliders and paragliders, on the Plateau des Petites Roches, the eastern outcrop of the Massif de Chartreuse, perched 1,000 meters above sea level. Lumbin, a growing small town, is home to the landing pads in the heart of the Grésivaudan valley.

SAINT-HILAIRE

A village of 1,500 inhabitants, in the mountainous reaches of the natural promontory of the Massif de la Chartreuse, overlooking the Grésivaudan valley. At 2,062 meters above sea level, the local peak of the Dent de Crolles watches over this small village where living the good life is a local art, refined season after season.

Thanks to the Coupe Icare, it has become one of the most famous sites for paragliding and hang gliding in the world. Highly sought after by pilots for the flight potential on offer, it is also an ideal dwelling place for families, thanks to the diversity of nature and sports activities on offer, with cities and mountain resorts nearby.

- **2 skis resorts** (Saint-Hilaire and Col de Marcieu).
- **1 summer activities mountain resort** (Col de Marcieu).
- **4 take-off areas** for paragliders and hang gliders, in the village.
- **25 km from Grenoble and Chambéry** (30 minutes by car).
- In the heart of the **Parc naturel régional de Chartreuse**.
www.parc-chartreuse.net

LUMBIN

A town of about 2,000 inhabitants, located in the heart of the Grésivaudan valley and Dauphiné region, Lumbin welcomes landing pads for paragliders and hang gliders year-round.

The valley spreads on all sides from Grenoble to the borders of the Savoie, a region with a very dynamic economy, where numerous companies are based, from a variety of sectors. The Grésivaudan is home to several company headquarters with international outreach. The landing area has grown over the years, with a business estate hosting companies specializing in outdoor sports.

- **Population has doubled in 15 years** since the microelectronic plants in Crolles et Bernin were opened.
- **23 km from Grenoble** (20 minutes by car).
- **As the crow flies: 2,5 km from Saint-Hilaire.**
- The communities of the plateau and the valley are part of the **communauté de communes du Grésivaudan**.
www.le-gresivaudan.fr

ICARE ÉCO, A SUSTAINABLE EVENT

When a local community values its heritage and wants to put it to good use, it leverages every asset to preserve its beauty and authenticity. So does the Coupe Icare take care, year after year, of reducing its impact on the environment.

Therefore, an ambitious approach to sustainable development was put in place and is strengthened every year. Efforts and initiatives that have received praise from free flight pilots and actors, a community that is particularly sensitive to environmental issues.

AN ALTERNATIVE TRANSPORT NETWORK FOR THE WEEK END

In partnership with local communities (municipalities in the Grésivaudan, Département de l'Isère, and Auvergne- Rhône-Alpes region), an alternative transport network is available on Saturdays and Sundays to access event sites without a car.

The initiative is so successful that parking lots in Saint-Hilaire are now rarely full.

- **A dedicated bus line** from Grenoble
- **Shuttles and Park & Ride** to the event's 2 sites
- **Signposted cycling routes** from Grenoble.
- **Discounted regional train**
- **Carsharing** is encouraged

WASTE : RESTRICT AND SORT

● **Restricting waste**

By using returnable cups (1 euro deposit) themed to the colors of the Coupe Icare. This is supported by local association Le Grand Tetras, tasked with informing, and raising awareness on the meaning of this approach.

F&B outlets will have recyclable and compostable crockery, and dry toilets have now replaced old chemical ones.

● **Sorting waste**

Thanks to sorting bins set up throughout the event area by local association Aremacs (Association pour le recyclage lors des manifestations culturelles et sportives), partnering with the Auvergne-Rhône-Alpes region.

ECO-RESPONSABILITY: THE WILL TO IMPROVE CONTINUOUSLY

Flight slots for paramotors and ULM were designed specifically to keep sound disturbances as low as possible.

The organizing committee has also decided to put an end to the presentation of vintage planes in aerial demos and the helicopter first flights from Lumbin.

The event welcomes every year environmental awareness raising operations with the Département de l'Isère, the bird protection league, or even the la Chartreuse regional natural parc.

Finally, the Coupe Icare is the landmark get-together for air sport actors taking action for the environment. Free flight practitioners are by definition in close contact with the natural environment and are acutely aware of environmental issues.

Some will be introducing new recycling techniques for fabrics used in the design or paragliders and hang gliders, with a view to grant a new lease of life to aircrafts that have played an important role in taking stock of environmental challenges. It is, indeed, from high above that our planet appears at its most fragile...

- Waste collection and sorting with the AREMACS association and Auvergne-Rhône-Alpes region.
- Parking lots, transport solutions with shuttles, cycle routes and parking spaces.
- Car sharing, discounts on regional trains.
- Returnable and reusable cups in all F&B outlets.
- Reusable bags with the Coupe Icare colors.
- Cap on night time noise (concert and loud activities halted at 1am).
- Complete site clean up after the event.

PRESS SERVICE

**FROM TUESDAY 20 TO
SUNDAY 25 SEPTEMBER 2022**

PRESS ROOM

- Accessible **after validation** of accreditation.

Located **in Saint-Hilaire**, at the heart of the event, in the funicular high station, at the Icarus Museum.

- > Internet connexion and Wi-Fi available.
- > Useful documentation on the event and the region.
- > Aerial shots can be taken from the site (information and booking with the press service only).

- **Accreditation badges and « PRESS » vest must be withdrawn from the Press room in Saint-Hilaire**

A deposit of 30 euros is required for the loan of a press vest, which must be worn at all times on all flight areas.

- **Schedule**

- > Tuesday **10h-14h** et **17h-20h30**
- > Wednesday **10h-14h**
- > Thursday **14h-19h**
- > Friday to Sunday **9h-19h**

INTERVIEWS AND PHOTO OPPORTUNITIES

- **Upon request** with the press service.
- In previous years: **photos, videos, and clips can be broadcast on request.**
